GOLD™esp

GOLDesp Integration Capabilities

Streamline Integration

INTEGRATION SIMPLIFIED

GOLDesp makes integration with other products easy by allowing multiple systems to run from one central point that gathers and analyzes information

Eliminate duplicate data entry with integration

DATA CAPTURE AND MANAGEMENT

The unique integration capabilities of GOLDesp™ensure our customers get the best functionality of different software applications in one integrated system.

Defense-industry leaders use this "best-of-breed" approach to leverage multiple software applications and create the most effective and efficient software system for their organizations.

This approach eliminates wasted man-hours spent entering data into multiple systems.

GOLDesp is unmatched in its ability to tightly weave into multiple systems including specialized Department of Defense (DoD) systems, Enterprise Resource Planning (ERP) systems, custom-programmed systems, and legacy character-based, "green screen" applications.
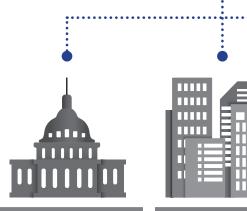

INTEGRATE VARIOUS SYSTEMS

The GOLDesp integration services team minimizes business disruption by allowing customers to run existing systems in conjunction with GOLDesp. Our customers have the option to implement the system in a phased approach, rather than replacing multiple legacy systems all at one time. GOLDesp uses Service Oriented Architecture (SOA), Web Services, and API sets to seamlessly integrate with DoD, legacy, or commercial off-the-shelf (COTS) software applications. With integration, organizations can increase staff productivity by eliminating multi-system, duplicate data entry. In addition, to simplifying integrations written by customers, the SOA of GOLDesp also facilitates the capture and management of condition-based maintenance (CBM) and health and usage monitoring systems (HUMS) data.

TAPESTRY SOLUTIONS™
A BOEING COMPANY

ENHANCE CAPABILITIES WITH A BEST-OF-BREED SOLUTION

CREATE ONE CENTRALIZED DATABASE TO CAPTURE INFORMATION

INCREASE DATA INTEGRITY & USER PRODUCTIVITY

GOLDesp

GOLDesp HAS ALREADY INTEGRATED WITH A VARIETY SOFTWARE APPLICATIONS. BELOW IS A PARTIAL LIST OF CURRENT GOLDesp INTEGRATIONS.

GOLDesp Suite

MILITARY (US & UK) INTERFACES

- US DoD DLA Transaction Services (formerly DAAS)
- USAF Item Manager Wholesale Requisition Process (IMWRP-D035A)*
- USAF Standard Base Supply System (SBSS-D002A)*
- USAF Equipment Management System (AFEMS-C001)*
- USAF Wholesale & Retail Receiving/Shipping (WARRS-D035K)*
- USAF Stock Number Users Directory (SNUD-D071)
- US Army ULLS-A
- US Navy R-Supply
- US NAVAIR NALDA (via AV3M)
- UK MOD CRISP
- UK MOD Logistic Support
- UK MOD Watchkeeper PATE HUMS
- UK MOD Apache HUMS

*via DLA Transaction Services

COTS PRODUCTS INTERFACES

- SAP SRM / CM / MBOM / ERP / CAP
- Oracle FI / Services / Inventory
- Servigistics SPO
- JDA Software / Manugistics Compass MRP
- JDA Software / Manugistics Networks Procurement
- Boeing MRP / MPS
- Info Trust IETM Packages
- 4 Sight Technologies CheckPlan
- JobScope MRP
- PSA CMPro
- FedEx
- IBM Maximo
- MCA APSS
- Pentaho BI 4

CUSTOMER PROPRIETARY INTERFACES

- Tandem
- CCVA
- WOW
- SE Team
- LAPPR
- PRIDE
- e-Repair
- CEVA / 3PL UNICODE
- ALMS
- EAS
- COPR
- SSAVIE
- LAPS
- EDW
- PIOS
- BRAIDSS
- RFE
- SDS
- Various Purchasing Systems
- TAV
- SAMS

Integrate legacy systems, ERP systems, and COTS applications
